

Opening of Matsunaga at Central Chidlom

Matsunaga (Thailand) Co., Ltd. is officially reopening at Central Chidlom (4th Floor), the flagship department store of Thailand's largest retailer.

Our journey at Central Chidlom began with a commitment to enhancing lives through innovative mobility solutions. While the unforeseen challenges of COVID-19 forced us to pause operations, the growing aging population in Thailand has reinforced our mission to support the community with high-quality products and services. This realization inspired us to return to the heart of Bangkok, where we can better serve our customers.

To mark this special occasion, we are excited to introduce the **Grace Core Custom** – a semi-custom wheelchair designed with personalization in mind. Customers can tailor the size, specifications, and even select from 15 unique frame colors, ensuring a perfect fit for their lifestyle and needs. Combining our expertise from Japan with a deep understanding of the Thai market, we aim to foster a society where everyone can thrive and live with dignity.

Additionally, we are proud to offer a curated selection of premium healthcare products from Japan, reflecting our commitment to quality and well-being.

We invite you to visit us at Central Chidlom to explore our offerings. Thank you.
